### **DETAILED ACTION**

This action is responsive to applicant's amendment of 9/28/2016, which has been entered into the electronic file of record.

The present application is being examined under the pre-AIA first to invent provisions.

#### ***Allowable Subject Matter***

Claims 1, 2, 5 and 6 are allowed.

The following is an examiner's statement of reasons for allowance:

In particular, the newly added limitation, "wherein either the plurality of pins or the plurality of mating apertures are positioned on three different sides of the chassis" is neither taught nor suggested in the prior art. Notably Anderson's heat staking operation has all of the apertures on one side of the object being attached.

The examiner adds that the limitations above are to be taken in the context of all limitations of the independent claim. In other words, the claim is viewed "as a whole" and all limitations present contribute to the judgment of allowability.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
